### \*\*REAR SPRING SHACKLE AND BUSHING SET

This set from Global West Suspension includes the front eye bushings and rear shackle kit for both springs. Installation of this kit requires the bushing housings to be pressed into the frame and leaf spring eyelets. The inserts and thrust washers separate the housings and spring from the metal to metal contact. These do not act as bushings, but similar to the bearings. **NEW!**

67-81	103SH	.....set	199.95
-------	-------	----------	--------

### \*LEAF SPRINGS

On cars equipped with mono springs, the multi-leaf springs are not a direct replacement for the mono spring. The perch on the axle tube has different depths between the two set-ups.

### \*\*QA1 ADJUSTABLE FRONT SHOCKS AND COIL SPRINGS

These Generation "F" Series shocks mount in the OE locations and are a direct replacement for the original shock. They can be adjusted on the car with a simple turn of the knob. This is a single adjustable shock with 12 valving options. One knob changes both compression and rebound valving simultaneously. They feature a 3/8" centerless ground, hard chrome plated piston rod, machined aluminum and bright anodized body, an exclusive 3 step sealing system to eliminate seal drag and dirt intrusion. These are all 100% Dyno tested and Serialized for assured performance. Comes with the correct hardware to mount the shocks. Also included are the correct coil springs for each application. The GK7300 includes a 300lb. rate coil for the standard ride and handling and the GK7325 includes a 325lb. rate spring for a more firm ride and improved handling over stock. **Limited lifetime manufacturer's warranty. NEW!**

93-02	GK7300	.....pr.	499.95
93-02	GK7325	.....pr.	499.95

### \*\*QA1 ADJUSTABLE SHOCKS

These Stocker Star shocks mount in the OE locations and are a direct replacement for the original shock. They can be adjusted on the car with a simple turn of the knob. This is a single adjustable shock with 12 valving options. One knob changes both compression and rebound valving simultaneously. These shocks feature a 3/8" centerless ground, hard chrome plated piston rod, machined aluminum and bright anodized body, an exclusive 3 step sealing system to eliminate seal drag and dirt intrusion. These are all 100% Dyno tested and Serialized for assured performance. Comes with the correct hardware to mount shocks. **Limited lifetime manufacturer's warranty. NEW!**
